SOUTH ALABAMA

Building the Class Schedule

- Class schedules are produced twice a year-- once for the Spring semester and again for the Summer and Fall semesters.
- The Schedule Production Timetable for the academic year is posted on the website, www.southalabama.edu/registrar.
- It provides the time periods during schedule production that schedulers have access to add or modify sections of courses for each semester.
- The Office of the University Registrar removes access for brief periods to 'clean up' discrepancies and conflicts.

Common Scheduling Issues

Campus and Instructional Method Codes

Campus codes and instructional method codes must be assigned correctly to ensure that students are billed correctly. These codes impact fees.

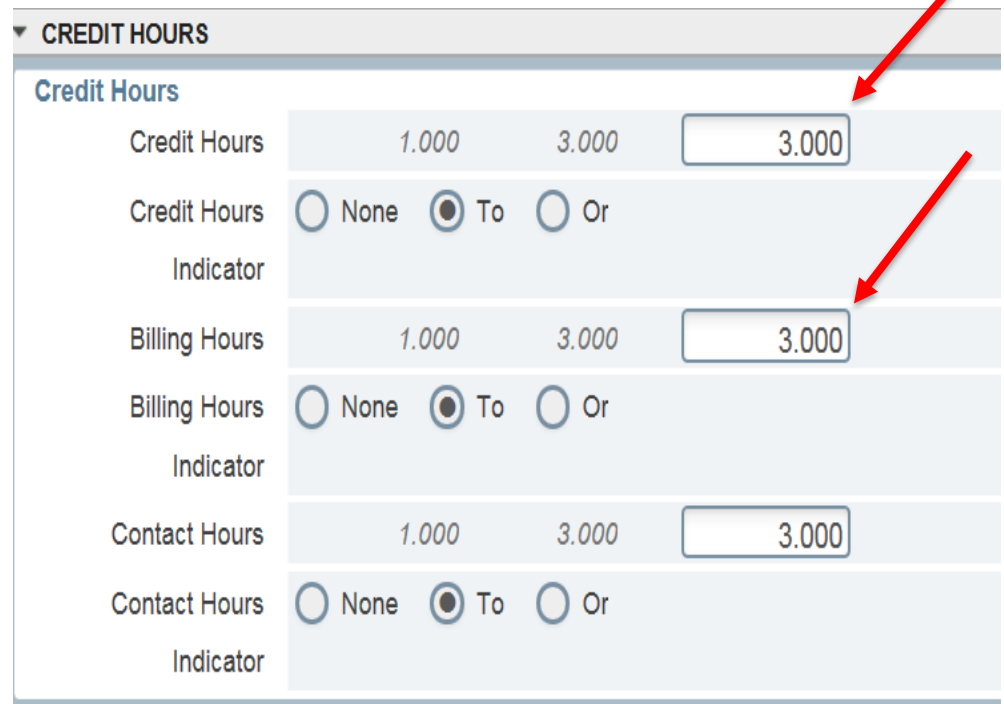

Variable Hour Sections

You **must enter credit and billing hours** to ensure the students receive proper credit and are billed correctly.

If these hours are updated, you **must update the session credit hours** also.

If there is registration and the hours need to be updated, please submit a schedule maintenance form to the Office of the University Registrar requesting such.

The screenshot displays the 'CREDIT HOURS' section of a Banner Scheduling interface. It contains three identical rows for 'Credit Hours', 'Billing Hours', and 'Contact Hours'. Each row has a label, a 'Credit Hours' field with radio buttons for 'None', 'To' (selected), and 'Or', and an input box. The input boxes for 'Credit Hours', 'Billing Hours', and 'Contact Hours' all contain the value '3.000'. Red arrows point to these input boxes. The 'Indicator' label is present below the radio buttons for each row.

Adding and/or Updating Instructors

- Instructors must have an “Active” status in Banner to be assigned to a course.
- If the instructor is not active, contact Academic Affairs with the Jag#, name, and college/department in which the instructor will be teaching.
- Multiple instructors can be assigned, but only one (the primary instructor) can enter grades.
- Total responsibility must = 100%

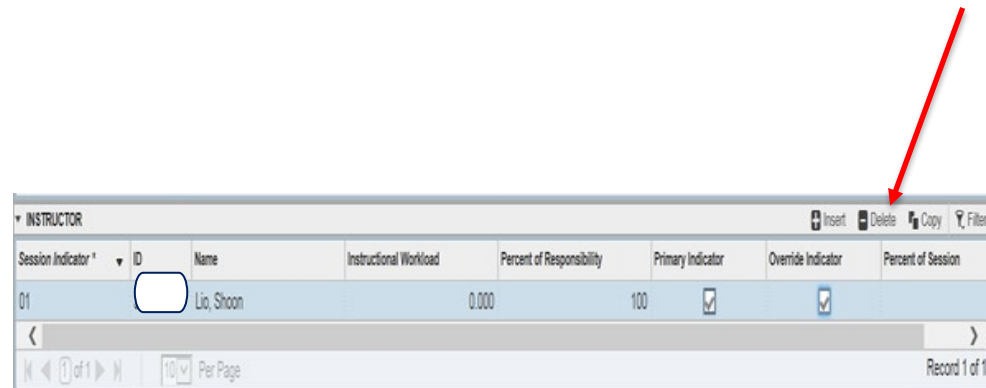

Removing an Instructor

Click the Instructor/ID field.

Click 'Delete' as shown in the screenshot.

Once the record has been deleted, enter the new instructor's jag number and save.

If you only need to remove an instructor, simply save your changes once the record has been deleted.

Closed and/or Canceling vs. Deleting a Section

Closing and/or canceling a section is much different than deleting a section. Closed (CL) sections mean that the course is being updated and students should be unable to register for these sections until updated to Active (A). Canceled (X) sections mean that the course will not be offered during the term it was canceled and remove the sections from the class schedule posted in PAWS. These sections will roll to the next term as a closed and/or canceled section. When running your reports, these closed and/or canceled sections will remain.

The Class Status Report (ZSGR0042) will show:

CL - closed by either the department or the Office of the University Registrar

C* - closed due to max enrollment (No seats available)

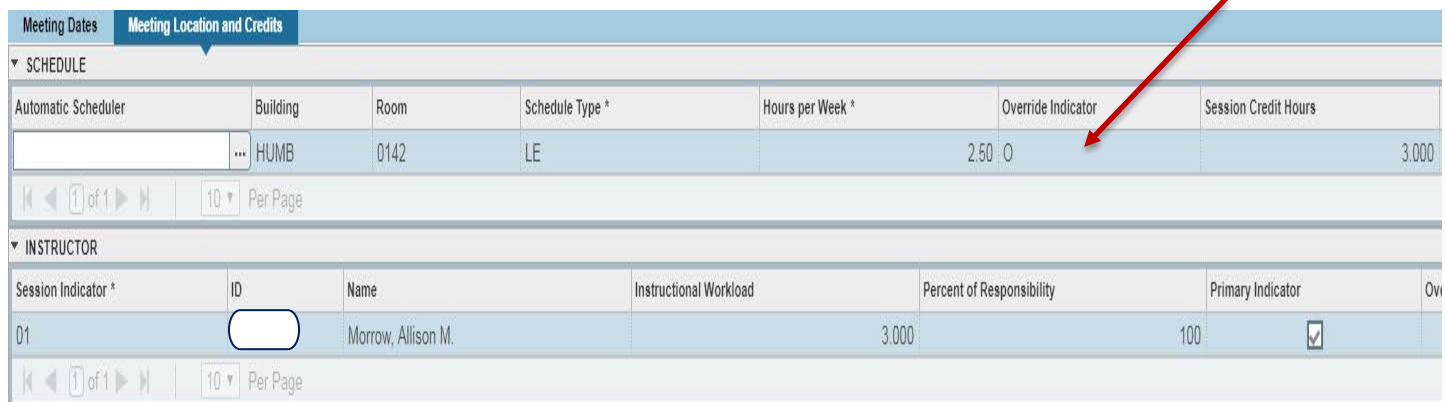

X - canceled by either the department or the Office of the University Registrar

When canceling a section, remove the instructor, meeting times/room assignment and zero out the enrollment. If you wish to cancel a section after students have registered, **You must notify the students giving them at least 24 hours to drop the course.**

Deleting sections is a Registrar function and must be requested via schedule maintenance form. Once a section has been deleted, it no longer appears on the schedule or on your reports.

Room Conflicts

Room conflicts occur due to the room being used for another section. If approved, enter “O” in the override indicator area.
